

## Quality Policy

Bioeconomy Corporation as a dedicated and professional agency for the government in developing Malaysia's Biotechnology industry aims to provide quality developmental, advocacy and support services towards the realisation of the National Biotechnology Policy.

As members of the Bioeconomy Corporation team, we strive to meet our stakeholders' expectations by:

1. Upholding our core values of teamwork, integrity, excellence and accountability
2. Engaging our stakeholders through effective communications
3. Facilitating Malaysia's biotechnology industry needs and requirements in a proactive manner
4. Enhancing our services and capabilities through continuous improvement
5. Expanding achievements in the science and business of biotechnology
